WHAT do we DO ?

Company focused on Contributing to the success of our clients.

Sapran Inc. provides

- ❖ consulting services
- ❖ complete design
- ❖ project management

Sapran Inc. is a Control Engineering firm specialized in

- ❖ electrical design
- ❖ process automation
- ❖ System integration.

Our company mission is to provide excellence in engineering services

With headquarter in Toronto, Canada, we serve clients throughout

- ❖ North America and
- ❖ Middle East

on small and large scale projects.

ABOUT US

With its' roots firmly planted in the Burlington area, Sapran began offering thermal imaging services in 2010, proudly serving the Southern Ontario region and focusing in Toronto and the GTA.

CONTROL & AUTOMATION:

Sapran Inc. provides engineering and programming services to various industries. Projects may vary in size, from a limited study and analysis, to a large-scale project including design, supply and installation of complete process lines.

Sapran Inc. is a product independent company, integrating systems from various leading drives, PLC and HMI vendors to fit unique requirement of each client. We are multidiscipline engineering and equipment supply firm.

PLC PROGRAMMING:

In a world that is plagued by downtime our PLC programmers can help improve the reliability and repeatability of your old equipment using a PLC application. Where an existing process needs to be improved or an aging machine needs some new life Sapran Engineering has the tools and expertise to improve your process with a PLC controller that will help keep you on the road to profitability. developing electrical engineering plans for an Electrical Site, power distribution system, illumination system, Earthing and lightning protection system.

SCADA SYSTEM:

We recognize the importance of an intuitive SCADA system which provides all the detailed information for the modern production environment. Multiple view nodes, wireless stations, remote web access and dual redundant systems are just a few of the bespoke areas of SCADA integration that Sapran Inc has been involved with.

ELECTRICAL ENGINEERING:

Sapran Engineering is a team of highly skilled Electrical Drafters and Designers, offering electrical drafting services for any type of building, substation, and sports field at competitive prices with the attention and perfection you can depend on. We are capable of developing electrical engineering plans for an Electrical Site, power distribution system, illumination system, Earthing and lightning protection system.
